THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI M.P. (c) There are various factors which effect the movement of prices of shares. Some of these factors relate to the expectations of investors regarding the performance of the corporate sector and the economy in general, perceptions of the investors about economic policies of the Government, developments in international capital markets and speculative activity. The transactions of Foreign Institutional Investors (FIIs) in the Indian stock market are governed by SEBI (Foreign Institutional Investors) Regulations. Investments by FIIs are limited to a ceiling of 24% of the paid up equity capital of a single Indian company under the portfolio route. Besides, FIIs are allowed to transact in Securities only on a delivery basis. In view of these factors, it may not be appropriate to attribute the fluctuations in the stock market to transactions by FIIs.

(d) Securities and Exchange Board of India (SEBI) is keeping a close watch on the functioning of the stock market and has been taking measures from time to time under the provisions of the SEBI Act, Rules and Regulations for promoting the orderly development of the market, for preventing malpractices and for safeguarding the interest of the investors.
